Technical Security Dynamics

Technical Security Dynamics LLC is an IT Security Consultant Company, that has a solid foundation in the IT industry providing strategic Cyber Security Solutions to our commercial, state, and federal client's. TSD was founded in 2022 followed by the CEOs success story of 13 years of experience as a physical and cybersecurity Federal Government Contractor since 2009. We have established federal contracting relationships and skill sets to accomplish our clients mission and business critical issues primarily as it relates to safeguarding high valued assets.

MISSION

As part of our company mission, we assist our clients with developing and managing your IT Security Infrastructure Programs. We prepare our clients for unexpected Cyber Attacks by identifying and mitigating Technical, Management and Operational security risk to improve and strengthen your organization's security posture.

Our Primary Objective is to exceed our client's expectations by problem solving and tailoring professional resources to critical needs. We implement solutions that effectively identify gaps and weaknesses that can potentially cause malicious attacks on clients' data and networks.

PAST PERFORMANCE

TSD Has successfully demonstrated past performance in supporting multiple government and private sector clients.
